

K-LOVE is one of the few local stations that are Christian based and it's the that comes in best. I love K-LOVE. The music is about Christ and anything that is talked about on the air, I know our 9 year old can hear. He loves K-LOVE. He knows most of the songs and is always singing and dancing. It's reassuring to know that our children have a station to listen to that doesn't talk about sex, gangs, drugs or murder. The artist are real role models and the message is the love of Christ. Since K-LOVE became available in our small town, most of the people of our church and the other local churches listen to it. I help teach Sunday school for K thru 6 grade and Sunday at church we were talking about tuning into God. The example was that don't you hate it when you have your favorite radio station on and then you go under a bridge and it goes to static. That's when the kids started talking about how K-LOVE was their favorite radio station. K-Love has made a huge difference in our community. It's given us one more way to praise the Lord, one more way to witness and one more way for our children to learn about the LOVE of Christ. God Bless
